

Metric single row tapered roller bearing

1. Product details

Tapered Roller Bearing- Metric single row tapered roller bearing-32006			
Brand	HAXB	Enclosure	Open
Diameter-Metric	30*55*17MM	Number of rows	Single row
Weight	0.17 Kilogram	Rolling Element	Ball Bearing
Ring Material	Gcr15 Chrome Steel	Cage Material	Steel
Precision Class	ABEC-3 ISO P6	HS Code	8482.10.20.00
Internal Clearance	C0-Medium/C3-Loose	Mounting Method	Shaft

2. Product Introduction

Single row tapered roller bearings are separable bearings.

It has an outer ring, its inner ring and a group of tapered rollers are an inner ring assembly composed of a basket cage, and the inner and outer rings of the bearing have tapered raceways.

The ability of single row tapered roller bearings to bear axial load depends on the contact angle, that is, the outer race raceway angle. The larger the angle, the greater the axial load capacity. Single row tapered roller bearings are the most widely used tapered roller bearings. Small size double row tapered roller bearings are used in the front wheel hubs of cars.

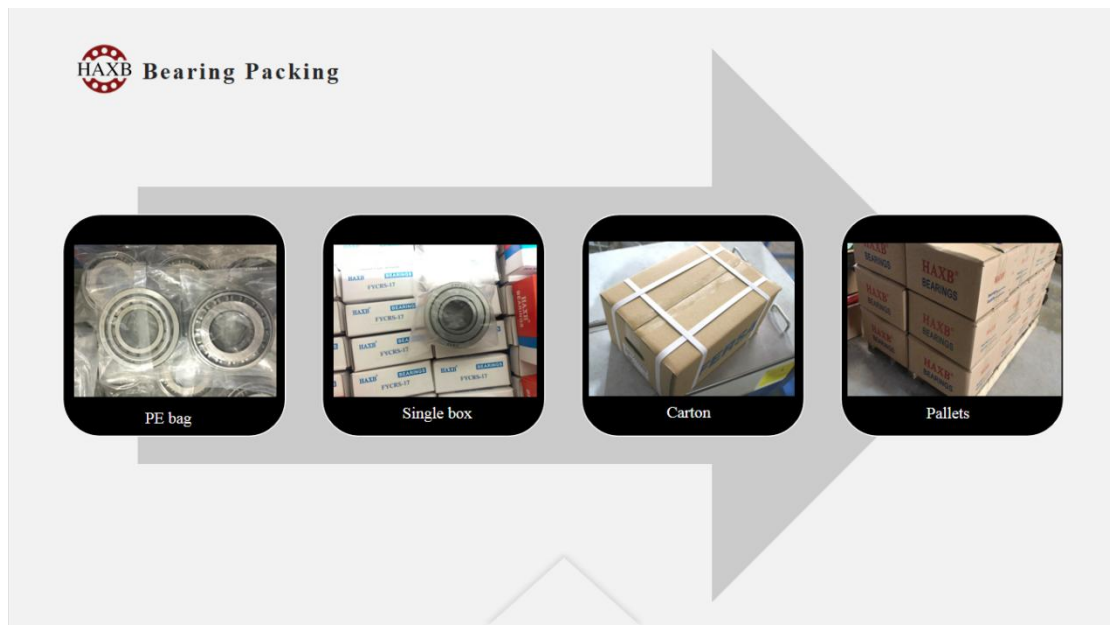

3. Product Application

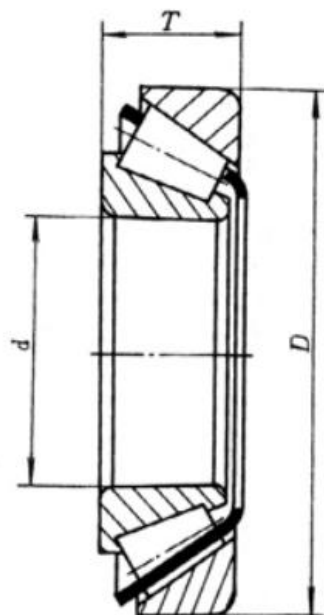

Tapered roller bearings are widely used in automobile, rolling mill, mining, metallurgy, plastic machinery and other industries.

4. HAXB Bearing Package

Waterproof transparent bag - Single Box - waterproof bag -haxb carton
- wooden pallet

6. Designs & Variants

Here is the Product catalog,

Special Variants:

In addition to the bearings presented in this section, deep groove ball bearings for special applications are shown under Engineered products.

These bearings include:

Sensor bearing units

High temperature bearings and bearing units

Bearings with Solid Oil

INSOCOAT bearings

Hybrid bearings

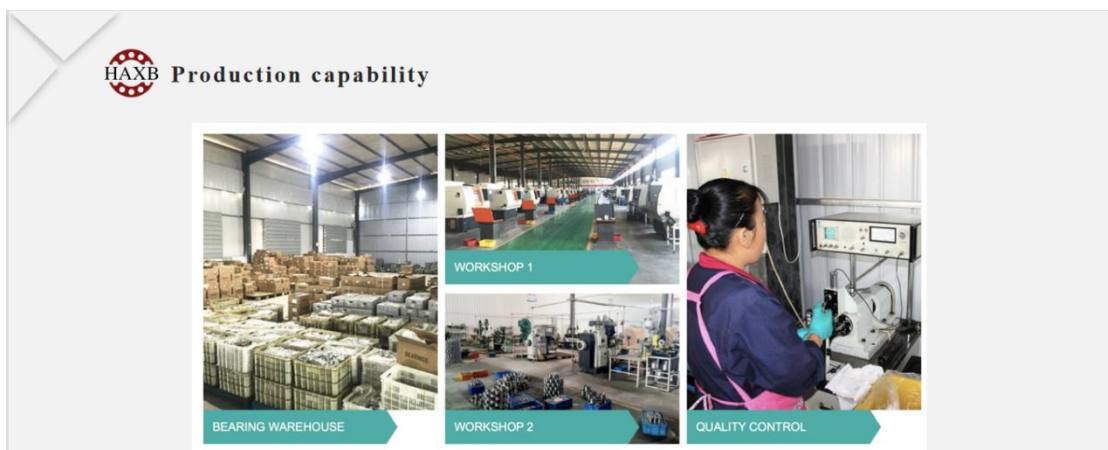

No-Wear coated bearings

For more bearing numbers, please kindly contact us.

4. Company Show

HAXB Bearing Manufacturing CO., Ltd. was established in 1998 with a registered capital of 3 million in 2008. Located in the largest bearing distribution center in northern China.

There are more than 35 employees, 6 engineers, 10 automatic production lines, as well as high standards of testing instruments, the

monthly production capacity of 5 million units.

- Our main export markets are North America, Western Europe and Middle East countries.
- In 2020, we are increasing cooperation with other parts of Asia and continuing to expand our export share

HAXB R&D Capability

Brand registration certificate for HAXB.

- Working closely with customers, we provide cost savings suggestions, which result in increased productivity. Through continued product training and the latest product development information, we are able to bring added value to every customer's need.

5. Trade Shows

- Show Name: 2018 China International Bearing and Special Equipment Exhibition Trade

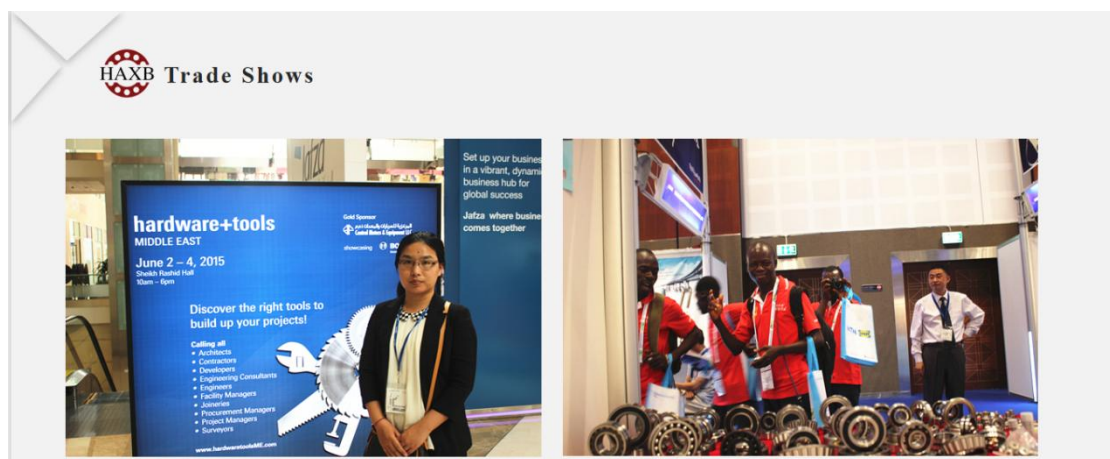

Date Attended:2018.9

Host Country/Region:CN

Introduction:We exhibited hundreds of bearing types and received 198 new and existing customers from all over the world.During the four-day exhibition, we signed orders for more than \$300,000.

● **2016 China Canton Fair**

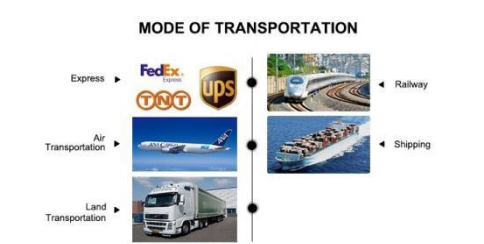

● **In 2015,we went to Dubai to participate in the Middle East Hardware Tools Exhibition.We have exchanged and studied with bearing exhibitors from all over the word and bearing buyers from all over the word.**

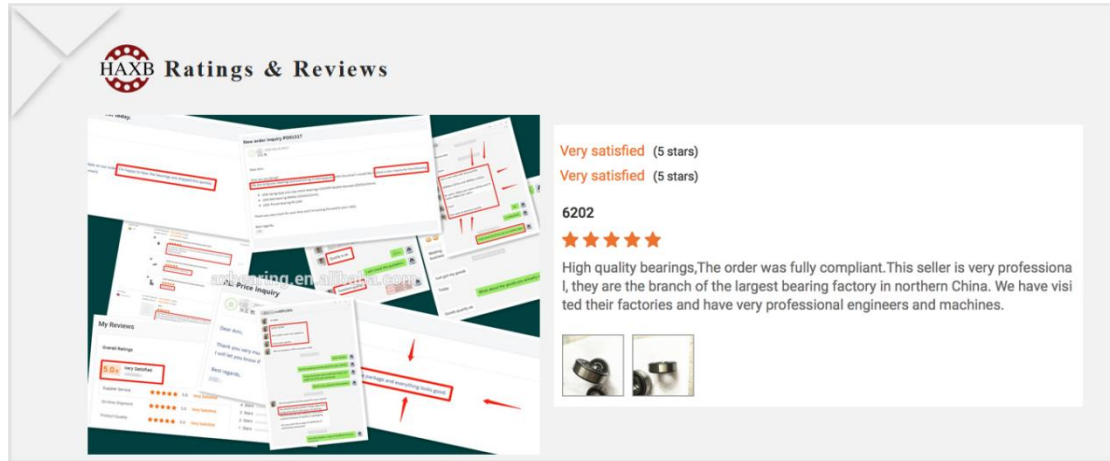

- 2014 China Shanghai Bearing Exhibition

7. Transportation & Delivery

The mode of transportation depends on the quantity and weight of the goods. The commonly used modes of transportation are: express delivery, air transportation and sea transportation.

8. Why Choose Us

- This is part of the customer feedback we collected.

Here is our company profile:

1. Main products: high-precision ball and roller bearings and automotive bearings, 24 years of bearing experience
2. Main business:
 - (1) HAXB - our own brand production and export
 - (2) OEM brand
 - (3) SKF licensor, the largest SKF licensor in Israel is our partner
3. Large customers in cooperation

Customers in 100 countries all over the world export 12 containers every month. Such as:Israel,Brazil,Bulgaria,Russia,Netherlands and so on.

9.FAQ

1.Are you factory or trading company?

We are an integration of industry and trade.Because of the large shipment, we have our own foreign trade company.

The factory and the trade company belong to one boss.

2.What is the quality can you provide?

We are focusing on high precision motor bearings, ABEC-3/ABEC-5/ABEC-7 are available.

3.Can we do ourselves bearing brand?

Sure. OEM service is available. Packing design service is free too.

4.How long is the general production cycle?

Generally within 10-25 working-days.

The production time will be calculated according to the date of the customer deposit began.According to the quantity of the order.

5. Can we visit your factory?

HAXB bearing welcome you!
